Dear Friends,

Save the date for Catherine's Estates Art and Garden Sale! Fri/Sat/Sun. March 9-11, from 8-4pm in a lovely home in the Catalina Foothills by Pontatoc and Fletcha Drive. Signs will be out on sale day. The inside beckons with art and custom furnishings. Couches, love seats, custom coffee tables and accent pieces by Steve Mack and others. Mid-century and the touch of designer Lori Carroll is apparent by one look at the pair of modern mauve leather chairs and by a hot pink swiveling chair duo. Custom consoles include a metal tetrahedral table with a lit glass top and a cunning pedestal table with an etched copper base and a two tiered glass top that will allow you to entertain your short and tall friends at once. Groovin' on graining? Serve Easter dinner on your new yet mid-century maple burl dining room set with beautiful burl and a matching buffet and sideboard. Multi-task your extra bedroom with the addition of a Murphy bed/office set with queen bed, bookcases, and desk all built in to one unit! It covers two walls and is worth every square foot. Now, what to put on those bookshelves? How about your choice from our collection of Native American pottery by Joseph and Barbara Cerno, Carol Vigil Jemez, Terrance Chino, MS Juanico, and others. We have Hopi Kachina figures that will delight the eye and please the senses. Be prepared to be amazed! If two dimensional art is calling you sixth sense, we have works by Lawrence Lee, Virginia Stonebarger, and an amazing etched copper piece by Steve Mack. Add free standing bookcases, leather recliners, bedroom furniture with saguaro ribbing, brushed steel accent tables, designer club chairs, bar stools, and you will have arrived at estate sale bliss. More treasures beckon out the back door with a diverse collection of garden and patio furniture, a St. Frances statue, fun folk art pieces, and many, many, potted and blooming plants including the ever popular golden barrel. Keep garden guest guessing by the display of your genuine 1886 Mackenzie iron bear trap – no mis-stepping allowed! Back in the house you will find quality rugs lying about underfoot. Turkoman, Kilim, and exceptional contemporary weavings will make you swoon. Don't forget the extra twinkle that comes from our glass, crystal, and silver pieces. Books, fun Jewelry, silver plate and a Tiffany candle lamp shade. Fun everyday dishes include Williams Sonoma Sardinia, Mary Alice Hadley, and Royal Copenhagen. They each set a festive table and allow you to put the dirty dishes in the dishwasher without a care. Kitchenalia abounds, along with small and large appliances. Don't hold back! The weather will be balmy and the opportunities will make you balmy too! Spend your tax refund at Catherine's Estates and keep the local economy strong! There's fun stuff, quality stuff, the only thing missing is you! See you there!
